

ABB's pluggable interface relays

Introduction

Interface relays are widely used in various industrial applications: As an interface they link the electronic controlling, e.g. PLC (programmable logic controller), PC or field bus systems, to the sensor / actuator level. Here, they take on various functions: Switching of AC or DC loads with different resistive, inductive and capacitive parts, switching voltages from a few mV up to 250 V, switching currents from a few mA up to 16 A, amplification of weak control signals, electrical isolation of control and load circuits, and signal multiplying. In contrast to electronic switching devices, interface relays don't use additional internal protective circuits and thus are overload-proof against short-time variations like current or voltage peaks.

Operational benefits

The high quality material of the contacts of the CR-Range provides a higher mechanical and electrical life time. Therefore the periods of service increase significantly. In consequence the down time of the application is reduced which results in a saving of costs and time.

Compact design

With the CR-Range products the space inside switch boards is reduced. The CR-S Range for example stands out with its extra slim width of only 5 mm (6.2 mm with socket) the switch boards will be more compact.

Different connection terminals

Selected products are available with different connection terminals. With both screw and spring connection terminals the CR-Range provides the ideal solution for the customers' requirements. The fast wiring of the products saves valuable time for example during the maintenance of a product.

World-wide & close cooperation

ABB's ability to provide the right solution for every application doesn't just apply to our interface relays. We have a full portfolio of electrical devices for all your requirements, and a global branch network that means we're never far away. We provide end-to-end customer support with a comprehensive service offering, and our local service teams guarantee you fast after-sales service.

ABB's pluggable interface relays

Product overview

Pluggable interface relays CR-S Range

- Complete variation (relays assembled on socket) for high-runners:
 - 24 V AC/DC, 110 V AC/DC, 230 V AC/DC
- Relay with standard and gold-plated contacts
 - Standard (AgSnO₂), gold-plated (AgSnO₂/Au)
- Sockets with LED
 - Screw/spring connection terminal
- Cadmium free contact material
- Further accessories
 - Jumper bar, marker, separator

Pluggable pcb relays CR-P

- 9 different coil voltages
 - DC versions: 12 V, 24 V, 48 V, 110 V
 - AC versions: 24 V, 48 V, 110 V, 120 V, 230 V
- 1 output c/o contact (16 A) or 2 output c/o contacts (8 A) optionally equipped with gold contacts
- Logical or standard sockets
- Cadmium-free contact material
- Width of socket: 15.5 mm
- Pluggable function modules
 - Reverse polarity predection/ Free wheeling diode
 - LED indication
 - Overvoltage predection

Pluggable miniature relays CR-M

- 12 different coil voltages
 - DC versions: 12 V, 24 V, 48 V, 60 V, 110 V, 125 V, 220 V
 - AC versions: 24 V, 48 V, 110 V, 120 V, 230 V
- Output contacts
 - 2 c/o contacts (12 A), 3 c/o contacts (10 A) or 4 c/o contacts (6 A) optionally equipped with gold contacts, LED and free wheeling diode
- Integrated test button for manual actuation and locking of the output contacts (blue = DC, orange = AC) that can be removed if necessary
- With or without integrated LED
- Logical or standard sockets
- Cadmium-free contact material
- Width on socket: 27 mm
- Pluggable function modules
 - Reverse polarity predection/Free wheeling diode
 - LED indication
 - RC elements
 - Overvoltage predection

Pluggable universal relays CR-U

- 12 different coil voltages
 - DC versions: 12 V, 24 V, 48 V, 110 V, 125 V, 220 V
 - AC versions: 24 V, 48 V, 60 V, 110 V, 120 V, 230 V
- Output contacts
 - 2 c/o contacts (10 A), 3 c/o contacts (10 A)
- Integrated test button for manual actuation and locking of the output contacts (blue = DC, orange = AC) that can be removed if necessary
- With or without integrated LED
- Cadmium-free contact material
- Width on socket: 38 mm
- Pluggable function modules
 - Reverse polarity predection/ Free wheeling diode
 - LED indication
 - RC elements
 - Overvoltage predection
 - Multifunction time module
